Thinner 435

COLORIS®

Alcohol-based solvent mixture for thinning special stamping inks and diluting to desired viscosity.

Stamp pads with dried/highly viscous ink can sometimes be refreshed by adding small quantities of thinner.

Caution:
Diluting too highly can lead to loss of important physical properties such as adhesion, covering capacity or color intensity!

Application:
We recommend this thinner for the following solvent-based inks:
Stamping ink 775 or 785/IIP.

Thinning instructions:
Pour a quantity of ink into a container, add a small quantity of thinner and stir. Continue to add small amounts of thinner until desired viscosity is reached.

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g · 5000ml/g
