1013

COLORIS®

A translucent stamping ink designed for children's games in accordance with the latest EU directive EN71/3.

Properties:
This solvent based stamping ink covers well, soaks into absorbent surfaces quickly and remains moist in the stamp pad for long periods without drying out. The high quality colorants used do not leave any permanent marks on clothing.

Application:
We recommend 1013 for marking all absorbent materials such as paper, cardboard, paper napkins and paper goods. This ink is excellent for stamp pads in children's games. 1013 is not particularly suited for marking coated paper, such as used for high gloss brochures, however can be used with some coatings (a sample should be tested).

Drying time:
~30sec smudge-proof (paper)

Viscosity:
highly viscous ~15sec
(Ford 4mm cup)

Stamp material:
Rubber or photo polymers

Stamp pad material:
We recommend our COLORIS pad for keeping the ink moist for stamping for a long period without drying out. However plate felt pads, felt rollers, foam rubber rollers or the SOLI plate pads can also be used.

Thinner/cleaner:
Thinner 430

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g
