8103 FP

COLORIS®

These stamping inks were developed specially to meet current EU guidelines for use in the foodstuff packaging industry.

Properties:
These stamping inks produce brightly coloured, quick-drying and immediately adhering prints. Only ingredients are used that meet the requirements of EU Directive 1935/2004/EC and Regulation 10/2011/EC, i.e. the ingredients are low-migration and free of heavy metals.

Application:
Foodstuffs packages, such as plastic bags, yogurt, covers, glass bottles and milk cartons can continue to be processed quickly following marking without smudging or smearing.

Drying time:
~10sec

Viscosity:
low viscosity, ~12sec
(Ford 4mm cup)

Stamp material:
Rubber, metal or special photo polymers

Stamp pad material:
Due to the high drying speed, we recommend only automatic printing with flexographic presses operating with ink reservoirs. When stamping manually, note that felt plate pads and Soli plate pads dry out very quickly.

Thinner/cleaner:
Thinner 425

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g · 5000ml/g
