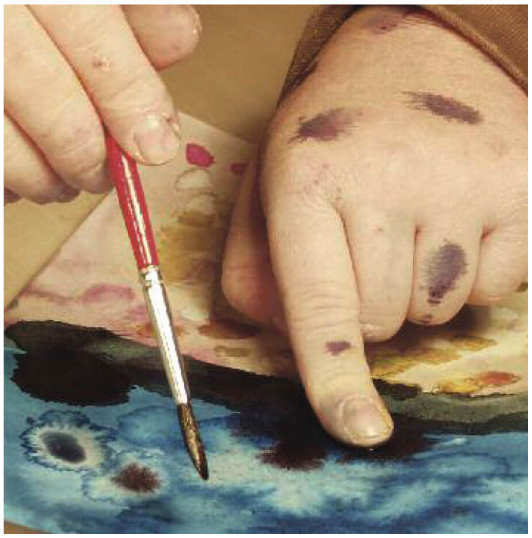
4011

COLORIS®

A ink to paint and blots; This skin-friendly paint colour for children was designed especially with regard to the EU standard EN 71. It can be used with fingers, brushes or pens and can be superbly or wash off from the skin or clothes. So also hand or foot imprints of infants can be made thereof without leaving residues on the skin remain after washing. This stamping ink is available in the colours black, red, blue, green, yellow, orange, purple and brown. Other colours can be produced on request. Ask our laboratory.



Characteristics:
Colour strength and very rich but little lightfast stamping ink.

Application:
Recommended the 4011 is for marking all absorbent materials such as Paper and board, but also on the skin. Use it mainly in kindergartens and schools for manual stamping or painting activities. It is rapidly absorbed into the paper and remains long in the color carrier without drying for stamping.
Coated papers, such as glossy magazines are rather unsuitable for marking with 4011, but may nevertheless be printed from case to case.

Drying time:
~15sec wipe fast (paper)

Viscosity:
very low viscos, ~ 12sec
(Ford 4mm cup)

Stamp material:
Rubber or photopolymers

Colour support:
It is recommended the COLORIS stamp pads; but also felt plate, felt rollers, foam rubber rollers or SOLI plate pads are suitable. For stamping also unused, unfilled fresh pillow selfinkers of COLOP, TRODAT SHINY suitable.

Thinner/cleaner:
Thinner 430

Available standard sizes:
10x28ml/g · 50ml/g · 250ml/g · 1000ml/g
