Thinner 490

COLORIS®

Ketone type solvent mixture for thinning special stamping inks and for setting the desired viscosity.

Also viscous stamping ink in a stamp pad can sometimes be refreshed by adding small amounts of thinner.

Caution:
Diluting too highly can lead to loss of important physical properties such as adhesion, opacity or colour strength lead!

Application:
We recommend this thinner for all quick drying stamping inks based on solvents, such as:
8103 FP

Thinning instructions:
Pour a quantity of ink into a container, add a small quantity of thinner and stir. Continue to add small amounts of thinner until desired viscosity is reached.

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g · 5000ml/g
