777 HV

COLORIS®

A slightly thicker stamp ink than the 777, which has been specially developed for high-speed machine printing on absorbent surfaces.

Properties:
This stamping ink is very economical and provides water-proof, quick drying imprints.

Application:
We recommend this stamping ink for cardboard, paper sacks and other similar absorbent materials.

Drying time:
~30sec smudge-proof (paper)

Viscosity:
low viscosity, ~30 sec
(Ford 4mm cup)

Stamp material:
Rubber or special photo polymers

Stamp pad material:
For automatic marking we recommend presses with rubber or foam ink rollers which operate with ink reservoirs.
For manual stamping, felt plate and foam pads as well as foam rubber rollers are suitable. The ink remains moist for stamping for a long period without drying out in stamp pads.

Thinner/cleaner:
Thinner 430

Available standard sizes:
250ml/g · 1000ml/g · 5000ml/g
