

A high quality, colourful ink for covering over and over-spraying old or incorrect inscriptions on cardboard or wood. Only environmentally-friendly propane/butane mixes are used as propellant.

Properties:

This marking ink goes a long way, is flexible, waterproof, quick-drying, and extremely lightfast. The colour pigments are easily dispersed by shaking, even after longer storage periods.

Application:

SIGNO-EX P is especially suitable for covering old or incorrect inscriptions on cardboard boxes, paper bags and wooden crates. The colour of this ink is that of standard cardboard.

Able to be over-sprayed with new ink within a very short period.

Drying time:

~15sec (metal) Signo-EX P

Solid content:

>25%

Method:

We recommend using the spray can approximately 20 cm from the surface, spraying crossways over the surface several times to avoid drips.

Cleaner for tools:

Thinner 475

Available standard sizes:

Spraycan 400ml
