R 9 FP ST

COLORIS®

These slightly quicker drying stamping inks were specially developed according to current EU guidelines for use in the foodstuffs packaging industry.

Properties:
The stamping ink produce brightly coloured, well-adhering prints. Only ingredients are used that meet the requirements of EU Directive 1935/2004 / EC and Regulation 10/2011 / EC, i.e. the ingredients are low-migration and free of heavy metals.

Application:
Foodstuffs packages, such as plastic bags, yogurt, covers, glass bottles and milk cartons can continue to be treated quickly following marking without smearing the markings.

Drying time:
~1min

Viscosity:
low viscosity, ~15sec
(Ford 4mm cup)

Stamp material:
Rubber and some photo polymers

Stamp pad material:
For manual stamping we offer the MARK II pads, felt plate and Soli plate pads. The ink remains moist for a long period in the pads without drying out. For automatic printing, we recommend flexographic presses with ink reservoirs.

Thinner/cleaner:
Thinner 410

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g · 5000ml/g
