8240 FP

COLORIS®

These slightly slower drying stamping inks were developed to meet current EU guidelines for use in the foodstuffs packaging industry.

Properties:
The stamingp inks produce brightly coloured, well-adhering prints. Only ingredients are used that meet the requirements of EU Directive 1935/2004 / EC and Regulation 10/2011 / EC, i.e. the ingredients are low-migration and free of heavy metals.

Application:
Food packaging of metal, wood, plastic, glass or rubber and such as plastic bags, sheet metal boxes, yogurt covers, glass bottles or milk cartons can continue to be processed quickly following marking without smudging or smearing.

Drying time:
~4min

Viscosity:
low viscosity, ~10sec
(Ford 4mm cup)

Stamp material:
Rubber or special photo polymers

Stamp pad material:
For manual stamping, we recommend felt plate or SOLI plate pads. The ink remains moist for a long period in the pads without drying out. For automatic printing, we recommend flexographic presses with ink reservoirs.

Thinner/cleaner:
Thinner 415

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g
