Stamp cleaner GF

COLORIS®

Water-based solvent mixture for cleaning stamps and print blocks which are soiled or have sticky ink deposits.

Properties:
For cleaning rubber, metal and particularly photo polymer stamps without danger of the stamp material swelling. Also suitable for removing ink spatter which has not yet dried on non-porous surfaces. On porous surfaces also check the cleaning effect and compatibility previously.

Application:
We recommend this stamp cleaner for all water-based inks such as:
Luminous stamping inks I, LT, ST, 1067 or 1073 P, stamping ink without oil 4010, stamping inks 500 P, 777, 843 P.

Viscosity:
low viscosity, ~12sec
(Ford 4mm cup)

Cleaning instructions:
crape off dry ink residues carefully with a sharp blade. Then saturate a soft cotton rag with the cleaning fluid and carefully wipe off stamp or print block.

Caution:
Never allow stamp or print block to soak or leave in cleaner for a longer period of time - even if heavily soiled.

Available standard sizes:
50ml/g · 250ml/g · 1000ml/g
